User Manual

Self Service Module

INTRODUCTION

This manual was developed for the purpose of guiding Human Resource Development Officers in using, navigating and utilizing the HRIS. As the country's premier University, UP aims to adapt new technology to make our operations more effective and more efficient. With HRIS, all HR operations across the entire UP system will be consolidated into one secure system accessible to both the employees and Human Resource Department Offices (HRDOs). This will not only help both the HR and the employee to easily access employee record and information across CUs; it will also lessen the paperwork and the effort exerted in passing information from one campus to another.

Though HR Information is exclusive to HRD Offices, some information are needed to be shared to other offices such as Accounting (for Payroll). Through the HRIS, shared processes will be integrated for easier transactions for both offices sharing the same information.

Symbols and Conventions Used in This Manual

To highlight the codes and Uniform Resource Locators (URLs), they are written in monospace font. They will be found in this manual like this:

`hris.up.edu.ph`

It is also important to be familiar with the symbols used both in the HR Information System and this manual. Some of the buttons and symbols used are listed below:

Icon	Description
	<p>Search Button: This button indicates that a field has a List of Values, which contains universal values for that field. However, there are fields which may have a List of Values, but also accept free texts. There are also some fields with a List of Values that strictly follow the universal List of Values.</p>

	<p>Calendar Button: These icons usually appear in fields that require dates. Clicking this icon will redirect you to another window that contains a calendar. Select the correct month, day and year from the calendar and click OK to apply that date.</p>
	<p>Delete Button: Click this icon located beside a field, if you want to remove that entry from the section (e.g. Phone Number)</p>

GETTING STARTED

Technical Guidelines

For the system to run properly, note that is important to check on the following technical requirements:

- **Browsers**

The HRIS Self Service runs best on the following web browsers:

- [Mozilla Firefox](#)
- [Safari](#)
- [Internet Explorer](#) (version 10 and below only)
- [Google Chrome](#)

- **Operating Systems**

HRIS works on all major operating systems e.g. Windows7, Windows 8, Linux, Mac OS X

- **Internet Connection**

Though HRIS works on any operating system and browser, you cannot log-in or access any of its features without an internet connection. As long as you are connected to an internet connection (e.g. campus/office network, home broadband, DSL, USB dongle, etc.), you can access HRIS anywhere around the globe. Any connectivity problem should be referred to your local IT offices (CU-/office-based) or internet service provider (PLDT, Globe, Smart, etc.). In cases when your concerns are HRIS-related, refer to the local HRIS Technical assigned to your CU.

- **User Accounts**

User accounts are usually distributed by the HR personnel assigned to your unit. If you're having trouble using the issued account credentials, simply click the Log-In Assistance Option in the log-in page.

➤ **Forgot Password**

Enter username and instruction on how to reset your password will be emailed to you.

➤ **Forgot Username**

Enter the email address associated with your account and your username will be emailed to you.

Using Your HRIS Account

Your HRIS account contains your personal and employment-related information, hence, protecting your account's security is an imperative. Here are a few reminders:

- Your credentials (username and password) are unique, but it can also be used to log-in to other information systems.
- Do not share your log-in credentials to anyone. Make sure to lock your computer or log out your account before leaving your computer. The system may have an auto-log out option, but there may still be an instance in between that may allow other people to view and use your profile.
- Change your password regularly, and make sure you report any suspicious encounters in your account.
